TIFFANY SIA (ARTISTS SPACE, NEW YORK)

Sia's portrait of Hong Kong, uniting themes of geography, history, and meteorology, refuses to take clarity as its objective. Rather, the complexities of individual perspective, collective perspective, diaspora, time, power, and resistance become pressure points by which we feel the weight of this ever-changing city.

Ulysses Jenkins, *The Nomadics*, 1991, digital video, color, sound, 12 minutes 36 seconds.
